

BRITISH ATROCITIES.

Specific Charges Made by Delaney.

Use Women as Screens Around Camps.

Brutal Treatment of Boer Leader's Wife, Mother and Children.

OFF THE NEW ASSOCIATED PRESS.—A.M.—AMSTERDAM, April 8.—(By Asiatic Cable.) The Boer bureau has published a report which was sent last January by Gen. Delaney to Mr. Kruger, and which is countersigned by Lieut.-Gen. Ferreira, the acting State Attorney. This report contains numerous stories of alleged British atrocities, and is supported by affidavits.

Among the greater accusations of placing women as screens around the British camps, as a result of which practice many women are said to have been killed, Gen. Delaney gives specific instances, with names and dates of the killing of wounded prisoners and the gassing of women and children owing to Lord Methuen's persecution of his own wife, six children, has been wandering on the veldt for the past year. Gen. Delaney complains also that his mother, aged 83 years, was driven into Bloekedorp, where her cattle had been stolen and her house burned.

Van der More, late Mining Minister of the Rand, now fighting under Delaney, appends a further list of atrocities committed on women and children, to the report of Gen. Delaney.

ENGLISH VIEW OF REPORTS.—OFF THE NEW ASSOCIATED PRESS.—A.M.—LONDON, April 8.—The publication of reports of British atrocities from Transvaal sources in Amsterdam and Brussels, the latter accusing the British of killing women, clergy and burning Boer churches, has claimed that there are 10,000 Boer invaders in Cape Colony are regarded in London as likely to influence the peace negotiations.

The Daily Mail points out that these reports are likely to enhance credence of the committee as a result of following on the heels of a series of stories of the Australian officers.

NOTHING TO GIVE OUT.—OFF THE NEW ASSOCIATED PRESS.—A.M.—LONDON, April 8.—After the Cabinet meeting today A. J. Balfour, the government leader, informed the Liberal leader, Mr. Campbell-Bannerman, in the House of Commons, that the government had no important information regarding the peace negotiations in South Africa.

AN ALARM FOR FUNDS.—OFF THE NEW ASSOCIATED PRESS.—A.M.—LONDON, April 8.—At the suggestion of Lord Milner, the British High Commissioner in South Africa, the Lord Mayor of London has issued an appeal for money or household articles for the families of soldiers who were plundered during their absence from the Transvaal. Lord Milner's suggestion was transmitted to the Lord Mayor of London through the Colonial Secretary.

LOUISIANA CAMP.

INVESTIGATION OF IT.—OFF THE NEW ASSOCIATED PRESS.—A.M.—CHICAGO, April 8.—Col. E. H. Crowley, the chief of the Adjutant-General's department, and assigned to the Department of the Lakes, according to the Tribune's New Orleans correspondent, is the officer sent to Port Chalmers, La., to inquire into conditions at the military camp and to be sure the management of the British government at that point.

Col. Crowley, the Tribune says, is at New Orleans awaiting instructions from the War Department.

Col. Crowley has already briefly inquired into conditions at Chalmers. He has found no conditions at the camp respondent that the Port Chalmers Railroad people claim to have full control.

NOT A CANDIDATE IS GEN. SHAFTER.

(By DIRECT WIRE TO THE TIMES.)

BAKERSFIELD, April 8.—[Exclusive Dispatch.] Gen. William R. Shafter, accompanied by his daughter, Mrs. William H. McKittrick, left on the Southern Pacific's northbound train for San Francisco this evening. As he was about to board the train he was interviewed by The Times' correspondent in regard to the report in the Los Angeles Evening Express that he would be a candidate in the coming campaign for the Governorship of California, on the Republican ticket. He said:

"I have no intention of trying for the office or the nomination. This has all come about through a letter written to me by one of my old army friends, stating that I was talked of as a candidate for the nomination."

"Many of my friends would be glad to see me in the gubernatorial fight, but I must disappoint them." He was asked in regard to law on retired army officers and said: "The law of the United States compels a retired army officer to resign from the army and pay roll if elected to a State office, which I will not do, therefore I am not a candidate. Although I appreciate the kindness of my friends I cannot accept the nomination, if it were tendered me."

trol of the land occupied by the pens and stables.

Col. Crowder investigated the court records pertaining to the suit brought by Gen. Garrison, and made every effort to prevent the sailing of two transports. The courts set aside the objections. It is found that nearly all the documents in the case came from the office of Washington as a part of Gov. Heard's report to the Secretary of State.

It is estimated that there are now three transports ready to leave Port Chalmers. At present there are three transports ready to clear for Cape Town the moment the animal cargoes are aboard.

PUT DOPE IN DRINK.

Mrs. Minnie Grady is Accused of Drugging Mrs. Proulx and Robbing Her of Her Diamonds.

(By DIRECT WIRE TO THE TIMES.)

BUTTE (Mont.) April 8.—[Exclusive Dispatch.] The police have encountered a strange mystery in Mrs. Minnie Grady, a widow who is in the City Jail after a charge of grand larceny. A few days ago Mrs. Emma Proulx, a wealthy widow, was found unconscious on the roadside some distance from the city. She was found here, and doctors said she had been poisoned and drugged. When she recovered consciousness she caused the arrest of Mrs. Grady, charging her with having drugged and robbed her of several thousand dollars' worth of diamonds.

She said Mrs. Grady had persuaded her to take a ride and to wear all her jewels to make a display. She took a drink offered by Mrs. Grady, and soon became sick, and was left on the roadside after being robbed.

The police are investigating a story that Mrs. Grady poisoned her husband and son for the insurance.

WRECK NEAR KALISPELL.

Passenger Train on the Great Northern is a Bad Smash-up and Several Persons Hurt.

(By DIRECT WIRE TO THE TIMES.)

HELENA (Mont.) April 8.—[Exclusive Dispatch.] A dispatch from Kalispell says that No. 4 east-bound passenger train on the Great Northern was wrecked this afternoon at a point fifteen miles west of Belton Station, which is about three miles from Kalispell. The engineer, Charles Hart, and his fireman, W. O. Cheshire, were badly scalded about the body and lower limbs. Express Messenger E. McConville was injured in the leg, and two passengers were injured whose names cannot be learned at present. The engine and the first four cars are a complete wreck. The cause of the accident is unknown.

Passenger Houston and Campbell were dispatched to the scene of the accident, and all assistance possible was given.

TARIFF ON FRUIT.

Committee of the Reichstag Fixes the Duties on Various Kinds of Fresh Unpacked and Packed Fruit.

(By THE NEW ASSOCIATED PRESS.—A.M.—LONDON, April 8.—After the Cabinet meeting today A. J. Balfour, the government leader, informed the Liberal leader, Mr. Campbell-Bannerman, in the House of Commons, that the government had no important information regarding the peace negotiations in South Africa.

WASHINGTON.

CONTINUED FROM FIRST PAGE.

strikingly in excess of the then current market price for the same articles of like quality, and supplies were purchased in the open market without any particular. It is further stated in Gen. Young's summary that "preference seems to have been shown special firms to the point of ordering from them articles out of their line of business, these firms at the same time charging exorbitant price, the extent in a case of 100 per cent. in excess of ruling market rates."

Upon the facts developed by the investigation, Gen. Young reluctantly found the practice necessary of moving large bodies of troops at short notice, lack of methods and forms to safeguard the government's property. Lieut.-Col. Chamberlain specifies in detail the features summarized by Gen. Young. He refers to the report of the Board of Inquiry, which he has done on the Loring case as defective; also that the amount spent on the Hancock \$542,560, was excessive, and was for luxuries. Furniture, pictures, etc., are of inferior quality, placed on the various transports.

OVERCOMING ABUSES.

WASHINGTON, April 8.—In his conclusions Col. Chamberlain says most of the abuses are unavoidable, and that there has been gradual improvement. He says that there are no abuses in the transports, which are equipped for extensive repair work, and that they had an understanding among themselves by which there was no discrimination. In some of the fittings for transports, he says, there has been at times extravagance, and in some cases great negligence. In some cases, however, the purchases have been shown in the distribution of patronage, and extensive purchases have been made with the result.

Col. Chamberlain says that one of the most notable abuses has been the use of great quantities of high-priced disinfestants. The transports, he says, have a trip of 9226 miles. He says there also has been an excessive use of high patent cleaning and polishing materials. In some cases 4000 words in five trips. He adds that this abuse has been remedied.

The loss of government property and equipment in the bodies of the immigrants to the United States, the immigration Committee had had the subject under consideration for many weeks. By vote of the Senate, the measure was referred to the Immigration Committee.

The Senate then passed thirty-nine private pension bills and at 5:10 o'clock adjourned.

WASHINGTON, April 8.—The debate upon the Cuban reciprocity bill opened in the House today. There was much activity among the leaders on both sides in preparation of the battle, and when the House was called to order at noon the attendance of members was unusually large. Routine business was first completed.

Mr. Lacy of Iowa asked unanimous consent for the consideration of a bill to protect game and fish in Alaska. There was no objection, and the bill was passed. He explained that while the Alaska code enacted a year ago it did not include game laws, and the result had been an enormous slaughter of game during the last season.

Mr. Payne, chairman of the Ways and Means Committee, then moved that the House go into committee of the whole for the consideration of the reciprocity bill.

The battle began immediately.

Mr. Tawney of Minnesota demanded to know what theory the bill was based upon. Mr. Payne replied that the bill was one of reciprocity, and the Speaker sustained that view. Thereupon Mr. Robertson of Louisiana raised the point of order that the bill did not include a provision for reciprocity. His contention was that the bill proposed to authorize reciprocal trade relations with Cuba: that it was not a bill to reduce revenue revenue and not a bill to reduce revenue.

The Speaker held that, under a long line of precedents, the bill was privileged.

Mr. Newlands of Nevada attempted to secure a ruling of the chair upon the question of whether amendments affecting the general reduction of the tariff could be in order, but the Speaker declined to rule upon a question before the House.

Mr. Robertson attempted to propose a resolution to the length of general debate, but Mr. Payne cut him off with a demand for the "regular order."

The first test of strength came upon the motion to go into committee of the whole. The motion was carried by 177 to 102.

A laughable incident occurred upon the division. On a viva voce vote, the chorus of "noes" was louder than the "yeses." Mr. McLean announced that the "noes" seemed to have it.

He lifted his gavel and looked at Mr. Payne, the majority leader, expecting him to demand a division, but Mr. Payne did not move.

"The noes have it," announced the Speaker.

Simultaneously, Mr. McLean of New York gave the day by shouting, "Division! I demand a division."

The result of the rising vote was watched with great interest. It resulted, Yes, 107; nays, 102, down. Reps. from the 10th, 11th, and 12th districts, Mr. Cullom of Illinois, chairman of the Committee on Foreign Relations, addressed the Senate in opposition to the pending bill.

Mr. Cullom reviewed the treaties and legislation on the subject of Chinese exclusion, and continuing, he said:

"Personally, I am in favor of an absolute exclusion of Chinese laborers, and I am in favor of the Chinese and the proper enforcement of our present laws, and it seems to me that those laws are ample sufficient. I do not believe that we should not have the bill under consideration because I consider many provisions of that bill to be violations of our treaty with China, and the Chinese should not have in the present situation that makes it either expedient or necessary to pass a law in disregard of our treaty with China. We should do nothing that is not upon a high plane of honor and dignity."

"Our trade with China is worthy of consideration in this connection. Under present conditions, it is as sure to come to the United States as the sun shines upon us, if we do not close the doors ourselves. The Hawaiian Territory would be the first to come from the California shores, in the direction of Japan and China, in the Pacific, is in the fullest sense a part of the United States. The great archipelago, the Philippine Islands—over which the sovereignty of the United States is proclaimed, is still being rapidly moved toward China. So we have opened a way for establishing our 'outposts' for the United States to control the commerce of that country."

"My belief is, we ought not to pass any laws in disregard of the spirit or letter of our treaties, that we can consider the Chinese laws, and the proper enforcement of our present laws, and it seems to me that those laws are ample sufficient. I do not believe that we should not have the bill under consideration because I consider many provisions of that bill to be violations of our treaty with China, and the Chinese should not have in the present situation that makes it either expedient or necessary to pass a law in disregard of our treaty with China. We should do nothing that is not upon a high plane of honor and dignity."

BUSINESS.

The clearances sent by the Los Angeles banks yesterday amounted to \$65,262,417, with more than a full average, real estate being largely represented in the total. For the corresponding day last year the amount of the clearances was \$21,160,600.

Wheat trading yesterday was dull and dragging; corn traveled a downhill road. The New York stock market opened strong, but gave way on profit-taking.

ELECTION OF U. S. SENATORS.

Public sentiment, in most of the States of the Union, is decidedly and strongly in favor of the submission of an amendment to the Constitution, providing for the election of United States Senators by popular vote, instead of by State Legislatures, as under the present system. This sentiment has been growing and crystallizing for years, until it is doubtful if in any State, were the question submitted to the voters, a majority, or even a respectable minority, could be mustered in support of the present unwieldy system, which has been proven, time and time again, to be altogether impracticable, unrepresentative of the popular will, and subject to grave abuses.

The Senate itself has been the principal stumbling-block in the way of the submission of the necessary Constitutional amendment to the Legislatures of the several States for ratification. There is little or no doubt that such an amendment would be ratified by the Legislatures of three-fourths of the States, as required by the Constitution, if it were submitted. But it requires a two-thirds vote in both houses of Congress to authorize the submission of a Constitutional amendment, and the Senate, for reasons which are more or less obvious, has refused to take the necessary action, although it has been plain to any careful observer of popular opinion, for some years past, that public sentiment throughout the country was in favor of the change.

More than two-thirds of the State Legislatures have adopted resolutions declaring for the election of United States Senators by popular vote. This fact, in itself, is a strong indication of the trend of public opinion. In failing to be guided by these expressions of the popular will, the Senate has incurred just criticism, and has furnished a forcible argument in favor of the proposed amendment; for no body of men elected by popular vote could with impunity so disregard the expressed wishes of their constituents.

Senator Harris of Kansas, in an article discussing this question, which was published in a recent issue of the Washington Times, set forth some of the evils of the present system, succinctly and pointedly, as follows:

"First—States are often deprived of the representation in the Senate that they are entitled to under the Constitution because of deadlocks and wrangles, where a failure to elect results, notably in Delaware, which is at present without representation.

"Second—It is oftentimes charged in these Legislatures that are tampered with when an election for Senator is about to occur.

"Third—Such a change would put out of power those in the Legislature who temporarily held the reins against the wishes of the people, but who can elect a Senator to serve six years while their term only last two years.

"Fourth—A Senator elected by a State Legislature is really not responsible to any constituency, for those who put him in office are, at the expiration of two years, out of power, while he has four additional years to serve, if, in fact, his term does not begin with the expiration of the Legislature, and he has six years with a free rein.

"Fifth—More often, in the election of Senators by the Legislature, a "deadlock" occurs, which leaves the State, and naturally the other pressing and important business of the State must suffer."

The above are but a few of the many good reasons for the election of United States Senators by the people. Any number of almost equally strong reasons might be cited, but

New York wants the Prince of Wales to come over, and King Ned is pushing on the lines and clucking a quiescence.

A DESIRABLE CHANGE.

For many years there has been much desultory discussion as to the desirability of changing the date for the inauguration of President and Vice-President from March 4 to a date a few weeks later. The principal reason for desiring this change of date is the fact that the weather in Washington is usually very inclement in early in March. The inauguration ceremonies are held in the open air, with the result that they are often held in a driving storm, which is not only a source of great inconvenience, but is also a source of danger to health, through exposure.

The question of the change is under consideration by a national committee, and it is proposed to take the matter up in earnest. "The latter part of April" is suggested as a suitable time for holding the inauguration, but it would seem to be even better to defer it until early in May, when the weather can usually be relied upon to be even more agreeable than in April. The proposed change, if made, will involve considerable readjustment in the machinery of government, but if it be found, practicable, after a thorough consideration of the subject in all its bearings, the change should undoubtedly be made. Congress should take up this question at the earliest opportunity, with a view to providing for the change if it is found practicable.

Padre Kipling pleaded on his knees before Gov. Odell for the liberty of a fellow-countryman, sentenced to Sing Sing for life. If Gov. Odell had only been a woman how quickly prison doors would have been opened.

The Constitution provides one method of proposing amendments, either by a two-thirds vote of both houses of Congress. It declares that, on the application of the Legislatures of two-thirds of the several States, Congress "shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes as part of this Constitution, when ratified by the Legislatures of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress." Thus, it is plain, the people are not wholly without a remedy in this matter. If the Senate shall persist in refusing to submit the requisite amendment for ratification by the State Legislatures, it may become necessary to proceed by the other method provided in the Constitution.

Possibly Bryan is sleeping in that barn in order to familiarize himself with a new kind of hayseed.

THE CONSTITUTIONALITY OF THE DYNASTY.

Some anxiety is occasionally expressed by people who are in the habit of looking at the world through blue glasses, lest there may arise in this country a class of plutocrats whose inherited wealth might enable them to form a sort of Order of the Almighty Dollar, more exclusive and less ornamental than the Order of the Garter. An incident, reported from New York a few days ago, tends to throw some light upon this question.

According to the story, the scion of one of our most noted families of multi-millions, now in its third generation, ran up to "York" from college, and within forty-eight hours dropped over \$100,000 in a gambling house. At this rate, it will evidently not take the young man long to dispose of the fortune of \$7,000,000 which he inherited from his father, and came into possession of a short time ago, when he obtained his majority.

It is seldom that these vast fortunes hold together for more than two or three generations. They would not, in England, were it not for the law of entail, which hands down the family estates from the father to the eldest son, making their sale impossible. In this country we have no such law, nor are we likely to have one. It is the exception rather than the rule when a young man inherits the qualities that have enabled his father to acquire and retain a fortune. When he marries, he is likely to give his wife anything, or of doing anything, whatever, but ask him for something. They think he possesses the earth, and the heavens above the earth, and the world under the earth, and he is bound to be had for their asking of it. That an analogous situation exists in Paris is evident from the fact that the scion of one of the most noted families of multi-millions, now in its third generation, was born to a fortune of \$7,000,000 which he inherited from his father, and came into possession of a short time ago, when he obtained his majority.

The Senate itself has been the principal stumbling-block in the way of the submission of the necessary Constitutional amendment to the Legislatures of the several States for ratification. There is little or no doubt that such an amendment would be ratified by the Legislatures of three-fourths of the States, as required by the Constitution, if it were submitted. But it requires a two-thirds vote in both houses of Congress to authorize the submission of a Constitutional amendment, and the Senate, for reasons which are more or less obvious, has refused to take the necessary action, although it has been plain to any careful observer of popular opinion, for some years past, that public sentiment throughout the country was in favor of the change.

More than two-thirds of the State Legislatures have adopted resolutions declaring for the election of United States Senators by popular vote. This fact, in itself, is a strong indication of the trend of public opinion. In failing to be guided by these expressions of the popular will, the Senate has incurred just criticism, and has furnished a forcible argument in favor of the proposed amendment; for no body of men elected by popular vote could with impunity so disregard the expressed wishes of their constituents.

Senator Harris of Kansas, in an article discussing this question, which was published in a recent issue of the Washington Times, set forth some of the evils of the present system, succinctly and pointedly, as follows:

"First—States are often deprived of the representation in the Senate that they are entitled to under the Constitution because of deadlocks and wrangles, where a failure to elect results, notably in Delaware, which is at present without representation.

"Second—It is oftentimes charged in these Legislatures that are tampered with when an election for Senator is about to occur.

"Third—Such a change would put out of power those in the Legislature who temporarily held the reins against the wishes of the people, but who can elect a Senator to serve six years while their term only last two years.

"Fourth—A Senator elected by a State Legislature is really not responsible to any constituency, for those who put him in office are, at the expiration of two years, out of power, while he has four additional years to serve, if, in fact, his term does not begin with the expiration of the Legislature, and he has six years with a free rein.

"Fifth—More often, in the election of Senators by the Legislature, a "deadlock" occurs, which leaves the State, and naturally the other pressing and important business of the State must suffer."

The above are but a few of the many good reasons for the election of United States Senators by the people. Any number of almost equally strong reasons might be cited, but

Harry Hager of Wichita, Kan., went insane while gazing at "Paddy" in a picture. This morning he was seen to be a simpleton, who had been brought from the madhouse when he tore down those lithographs of "Paddy" in a Chicago hotel.

He will now go out of his mind in his house in due time, but he will have considerable difficulty in getting that political hatter off his neck when he makes the change.

New York wants the Prince of Wales to come over, and King Ned is pushing on the lines and clucking a quiescence.

THE TIMES-MIRROR COMPANY.

BY THE NEW ASSOCIATED PRESS—P.M.

DENVER (Colo.) April 8.—A Boer colony may be established along the line of the proposed Denver-Salt Lake short line. A committee of local Boer sympathizers called on the State Land Commission and the State Geologist to advise him on the location of the colony.

He is not willing to take his turn, but buttons the Boer Senate before any one else can make a speech.

The "Daily" of Denver, which has been established, is a colony of 1000 Boers.

"If I can get the right kind of information, I will go to the State Land Commission and the State Geologist to advise him on the location of the colony.

Hughes, the historian, stated that it was his firm belief that the young pretender himself was in one of the lands of the gauchos dressed in female attire, and that it was he who dropped the mysterious glove.

The Dymoke family has supplied kings of England who have been chosen for the crown, and the present one was chosen for that office by Richard II.

Most of the descendants have been only too eager to act in some capacity, but one of them, who hap-

SENCE MOLLIE HAS GOTTEN A BEAU!

They's dead loads o' fun in th' parlor

Six nights in th' week we fu' us boys,

A' parlor starts a grin,

Now we's all in th' house,

Whenever they hear any noise;

Nen' paw puts his eye to th' keyhole,

"N' en' whispers back, sort o' low:

So I guess it's all right!"

Sence Mollie has gotten a beau!

That spindle-shanked dude acts just

crazy,

"N' sis, she's a'ketchin' it, too;

We allers kill tell 'em,

When we's all in th' bell,

"N' sis' acts o' acts like she knew;

She'll scoot through th' hall-way,

We never yet seen her go slow,

"N' then it's "pop-pop!"

And when they swap,

Sence Mollie has gotten a beau!

"N' sis, she comes out to th' kitchen,

"N' whiners to now, "Algy's come!"

"N' en' maw tells us boys

Not' make any noise,

"N' we allers be'et keep mump!

But we's all in th' next room,

We allers on' in' a widow—

They's all sorts o' fun

When th' squeasin' begins,

Sence Mollie's gotten a beau!

I know it ain't right 't he's lookin'

But when maw goes out with th'

Well, we's all in th' ball-

DECLARED WAR
ON BEEFSTEAK.NIGHT BLOCK FOR
NORTH BROADWAY.

pronounced it as BEEFSTEAK, as "Jag Fluid." Vegetarians Had Fiery Convention.

Reason Why Pale Bathers are Stronger Than College Athletes.

last night the vegetarians held a meeting to discuss the demon beefsteak. The Young Woman's Christian Association was the direct object was the reason for the meeting. The club is a league for the promotion of beautiful thoughts and digests. It was presided over by Hoyt, who has written many papers. The club is firmly resolved to continue the movement until Peter Newell can come to a cabbage head, that is diversity of opinion as to means.

A glowing devotee of hideous wanted to start a church in San Diego. It was a pettish church, and it was a annual message to Congress favored recipes for meat, soups, stews of a string bean soup of hay.

DOWNSHORE OFFERED SAN DIEGO.

WILL BUILD IF CITY FINISHED SITE.

Se Dean That One Person Upon Every Two and a Half Acres of Ground in

CORRESPONDENCE OF THE TIMES.

APRIL 9, 1902. April 8.—John C. built the Fisher Opera.

An' told my children thrillin' tales of how their daddy fought.

An' when the maybers' come in, my mother's tongue would flow.

Until I know I'd wish to gosh the cussed thing'd stop.

I'd tell 'em of the tented camps, the marches and the fights,

The fun of the campfire in the bivouac o' nights.

An' all the dire privations that a soldier could befall;

But since that boy o' mine got back I stand no show at all.

I guess for 'most a thousand times,

An' told my children thrillin' tales of how their daddy fought.

An' when the maybers' come in, my mother's tongue would flow.

Until I know I'd wish to gosh the cussed thing'd stop.

I'd tell 'em of the tented camps, the marches and the fights,

The fun of the campfire in the bivouac o' nights.

An' all the dire privations that a soldier could befall;

But since that boy o' mine got back I stand no show at all.

I marched with Billy Sherman from Atlanta to the sea.

Swung round to old Virginny for a shay at Bob Lee.

I went through more'n twenty nights where shell and bullets flew.

An' started the son of Dixie with my blood that night.

An' ever since, the greatest joy o' life has been to set the belligerent bloods again with some old comrade yet,

Get the children 'round me like a eager list'n' wall;

But since that boy o' mine got back I stand no show at all.

Of course, as veteran soldiers will, some yarbs I'd of'n spin

If you're not tellin' for truth'd pan out mighty thin;

An' had some old prevarications I had come to believe.

Was goin' sick myself, and not intended to deceiv.

I saw some rocky service, an' I fought right up to date;

But I'd be in the fightin' when my yarbs'd indicate.

I'd be the biggest war horse in the whole rebellion stall;

But since that boy o' mine got back I stand no show at all.

I guess for 'most a thousand times,

An' told my children thrillin' tales of how their daddy fought.

An' when the maybers' come in, my mother's tongue would flow.

Until I know I'd wish to gosh the cussed thing'd stop.

I'd tell 'em of the tented camps, the marches and the fights,

The fun of the campfire in the bivouac o' nights.

An' all the dire privations that a soldier could befall;

But since that boy o' mine got back I stand no show at all.

I guess for 'most a thousand times,

An' told my children thrillin' tales of how their daddy fought.

An' when the maybers' come in, my mother's tongue would flow.

Until I know I'd wish to gosh the cussed thing'd stop.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Old Soldier Insignia.

O. P. Warn, an old soldier, was arrested yesterday on the charge of insanity. He was put to bed in the Receiving Hospital, to be held for examination.

No Fiesta Programme.

There will be no official fiesta programme for such a publication, but they are simply won't do a great many things should be on their guard against such fakes.

Death of Mrs. Tallman.

Mrs. T. P. Tallman, wife of a retired Chicago capitalist, died yesterday afternoon at the Roslyn Hotel, where she had made her home for two years. The cause of death was heart failure.

New Fraternal Lodge.

The Improved Order of Red Men will organize a local lodge and initiate about fifty new members Saturday afternoon at No. 12 North Main street. The great chiefs of the order will be here from San Francisco to officiate.

Raving Maniac.

An elderly German was arrested yesterday afternoon, a raving maniac. He gave the name of Peter Tunk at first, but was later identified as Max Holleran. He had created a reign of terror in the Roxbury lodging-house by chasing women and children.

Back to Denver.

Rev. Charles B. Allen, wife, and daughter, have left for the mountains after spending the winter in Los Angeles and vicinity. Mr. Allen occupied the pulpit of the First Methodist Episcopal Church, and has preached Sunday evenings and has preached in several other churches during his stay here.

Nipper Thief.

A "nipper" thief entered Highland Villa at First and Hill streets Monday night and stole the property of three rooms, F. S. Gets and E. P. Passmore each lost a watch. D. E. Stanton lost his trousers, a pocket of which was open and torn. The trousers were found outside the room, but the money and the watches have not been recovered.

Afro-American Float.

Los Angeles Afro-Americans will be represented by a float in the coming Flower parade. The floats were decided last night at a meeting of the colored people held at No. 294 South Los Angeles street. A public meeting is arranged for Saturday night at the home of C. G. Walker, No. 229 Second street, when plans for the float will be adopted, and other features of the share of the parade arranged.

Car Run Into Curb.

Car No. 109 on the Washington line of Los Angeles Railway Company was precipitated from the track against the curb on Spring street just west of Fourth street yesterday at 5 p.m. by the snapping of the front axle which had become crystallized from long use. Fortunately no one was in the path of the plunging car, but a passenger standing near the curb had a wheel demolished and was otherwise injured.

Trip to Constantinople.

The Men's League of Immanuel Presbyterian Church took a trip to Constantinople last night, under the charge of Dr. John A. Hartman. The doctor spoke for nearly an hour at an open meeting of the league, concerning accidents and incidents in the Moslem capital, and in inserting the talker, and his descriptions of the Selimlik, the mosques, bridges, bazars and many other features of the great city, delighted the large audience.

Maple Sugar.

Joe Wilson, tourist conductor, is in from the East. Joe's home is in Vermont. He says it is a great year for maple sugar people in the Green Mountain State. The sap ran in streams all during March and the crop is the biggest in years. But the demand is so active that good grades sell at 15 cents per pound in the groves. There are men in Vermont who make five or six bushels of sugar saples. At \$300 per ton a man's income from such a grove is \$1800.

Will Read Booker Washington.

The colored people of Los Angeles are anticipating a visit from Booker T. Washington. It is thought he will be here Saturday, and when he arrives upon his arrival it is purposed to give him a public reception by members of his own race. A meeting of colored men has been arranged at the office of Harroll & Greely, No. 229 South Fourth street, to organize a social club, as a nucleus for the management of this reception and similar affairs. Among the leaders in the meeting are John Sanders, D. W. Walker, J. H. Greenly, T. A. Henry and Dr. G. A. Garrett.

Church Improvement.

The Building Committee of the Second Baptist Church, located on Main street, between Second and Eighth streets, met last night and decided to proceed at once with the improvement of the church building. The first item of the program of improvement will be the erection of a tower, to rise forty feet above the roof; making it eighty-four feet from the ground. Other minor changes in the building will be made, the whole improvement to cost about \$1000. The Building Committee is composed of Rev. C. H. Anderson, George W. Jones, J. Crawford, Greenly, H. Strickling, W. Boulden and J. J. Nelson.

Bestial Complaint.

Alexander Davidson was arrested yesterday afternoon at his home on East Fifteenth street, on the charge of taking a number of live litigants. The report reached the police on Monday that Davidson had been tampering with children. Officer Morris was detailed to investigate, and as a result of his labors, the mother of one of the tots swore to a complaint charging Davidson with child abuse. He was resigning before Justice Austin, and was bailed at \$150, which the prisoner was unable to furnish. Davidson is a married man of middle age. The city directory gives his occupation as clerk. It is alleged that he enticed little girls into his room and tried to teach them gross immorality. He denies the charge.

Pastor's Reception.

The congregation of the Broadway Church of Christ last night tendered a reception to its pastor, Rev. B. F. Coulter, and his family. The chief feature of the gathering being the attendance of the Japanese mission school, about sixty boys in the body.

MARRIAGE LICENSES.

The wedding program included an address by Elder T. D. Garvin of the Vernon Christian Church; songs by the chorus choir; guitar and mandolin duets; several readings; solo by two of the Japanese boys; native musical instruments; and several songs by Mrs. Princess Long. An original poem by Elder Hinck, entitled, "Servants of Christ," was written by the author, and then presented to Elder Coulter, after which the poem was beautifully sung by Mrs. Princess Long. At the close of the program Elder Coulter made a touching address, speaking of his love for the church and congregation, and his appreciation of the reception tendered him.

MARRIAGE LICENSES.

Following are the marriage licenses issued yesterday from the office of the County Clerk:

Wilson, aged 25, a native of Kansas, and Julia E. Bowler, aged 22, a native of Illinois; both residents of Pomona.

George A. Gardner, aged 34, a native of New York, and Edna M. Hall, aged

THE PUBLIC SERVICE—OFFICIAL DOINGS.

SUMMARY OF THE DAY.

Commissioner Thorpe stated yesterday before the Police Commission that the bar at the United States Hotel is used on Sundays in defiance of the rules of the board, and that there are other offenders. It was decided to call the saloon-keepers on the carpet.

The statement was made yesterday that the Council had finally decided to appropriate interest and saving fund on the water bonds from the revenues of the plant, instead of by direct taxation.

Disbarment proceedings were begun yesterday against Frank G. Bryant, Esq.

A unique damage suit has been begun by Loyman Newton against a Long Beach lighting company for \$10,000. This motion also carried.

AT THE CITY HALL.

RIVERS ON BEER MUST NOT FLOW ON SUNDAYS.

POLICE COMMISSION WILL ORDER BARS OUT OF ACTION.

Commissioner Thorpe Makes a Sabbath Day's Pilgrimage and Discovers That Some Saloons Operate Just as on Week Days—Pernicious Restaurant License.

Saloon-keepers who persist in using their bars on Sundays under the restaurant liquor privilege must look "a little closer," Commissioner Thorpe said yesterday. The man of the Police Commission may catch them at their tricks and offer them a chance to retire from business.

It would help out the Murphy campaign, but would be hard on the saloon men.

Commissioner Thorpe has become addicted to little Sunday expeditions to the saloons. He believes personal observation the best way to find out how the saloon business is run.

Thorpe intimates that a great many schooners will be wrecked on the banks of the river if the saloon-keepers do not steer clear of the water.

Even mouldy cheese sandwiches will avail nothing as life preservers.

Commissioner Thorpe has been devoting some time to the bar in the United States Hotel, kept by C. Hunsaker. On several Sundays he has noted with interest the uninterrupted flow of the stuff that cheers and also inebriates.

Yesterday he said that the mugs in the saloon steamed the bottoms of whisky, the stouts of beer, and the ale were always accompanied by a small, unpalatable cheese sandwich in technical compliance with the law.

"I am not going to touch them, though," explained the commissioner yesterday. "I guess the people there had some regard for their health."

Thorpe further stated that the proprietor made no pretense of conducting a bona fide restaurant. All the chairs and paraphernalia, not used in the restaurant, were piled up where they could not readily be presented into service. He said the bar ran all the time, day and night, and every day in the week.

Kenney said that Hunsaker promised to use the regular liquor license in the regular cafe, and that he had not done so because he thought it should be brought up at the salaried bar.

At the request of Commissioner Thorpe the commissioner instructed the clerk to notify Hunsaker to appear before the board in the morning. The commissioner stated in explanation of his motion that last Sunday the bar was enclosed with a screen for the purpose of separating the rear. He said that a separate bar, arranged apparently for Sunday use, was running full tilt. No one patronized the cold refreshments except the committee.

"And I only did so once," added Thorpe with a wry face.

CASTELLANO'S TROUBLES.

Signor Castellano, who relieves the public thirst at the Washington saloon, which is located between the 10th and 11th Streets, No. 519 North Main street, is still in trouble. About the middle of last month Castellano moved without the formality of a permit from the commission. He took a five-year lease on his new location and prepared for a prosperous season. His application for a transfer of the license was placed in the hands of Frank Lerch, the financial secretary of the Zwickel Brewing Company. Mr. Lerch alleges that the master slipped his mind and that he neglected to file the application for a new license.

While Signor Castellano was setting up his wet goods in the new location with the first belief that his application for a transfer of the license from one location to another would be granted, it was before the Police Commission the board passed a resolution that all applications for change of location in the same block must be issued by the majority of the frontage. At the next meeting the belated request from Castellano appeared.

At the hearing Joseph Scott appeared before the board yesterday in the interest of the saloon-keeper. He asked that the previous action of the board in giving him a permit for a change of location be reconsidered. Thorpe and Kenney were of the opinion that the rule should be strictly enforced, even if it resulted in personal hardships in some cases. Kenney and Lerch and Signor Castellano were in favor of granting Castellano a new hearing because of the mitigating circumstances attending his case.

The Mayor asked some very pointed questions about the ownership of the property from which the saloon had received, and that to be occupied in the future. He said that the two men who were most instrumental in the consideration were responsible for the stand taken by two of the commissioners.

As usual, the old brewery fight again came to the front. It developed that the Los Angeles Brewery had an interest in the old building, but that the new location was purchased by Castellano.

After a long discussion it was agreed to postpone action one week owing to the deadlock in the board's commissioners. Mr. Lerch, who will be in San Francisco, will have the pleasant duty of deciding the vexed question on his return.

GHT TWO STARS.

After a conference with J. A. Muir regarding free transportation for city employees, the majority of the Police Commission reached the determination that the Los Angeles Railway Company is very much abused in the manner in which it is run. The board refused to hear stars or shields to the deputies and inspectors in the health and street departments, who were most "star" pillars of the city, under an ordinance passed by the Council.

Commissioner Thorpe produced some figures that had been supplied him by Manager Muir from the books of the company. The board, it was understood, of which the company asserts only 14 should be recognized.

The list is as follows: Regular police-

men, 105; regular special policemen, 17; retired officers, subject to call, 4; Chief of Health Office, 1; Tax Collector, 2.

The company declares that the last four stars should not be allowed. Commissioner Thorpe thinks likewise, and the question the City was instructed to call in the four stars.

Stimson declared that Muir had agreed to allow free transportation to the commissioners, who also denied it to the department deputies.

"That reminds me," said the Mayor, "of the man who went to see the Governor in the hope of getting a friend a position, and had himself appointed instead."

When the laugh at this sally had subsided Thorpe moved that the question of stars be referred to the departmental board.

This motion also carried.

Mayor Snyder protested. He said it is the company that had the right and the time for the franchises, it would be different. Kenney said he has no doubt the company wants every nickel the city. The Mayor also made the point that the license to practice law in all the California courts, issued to Bryan by the Supreme Court on October 10, 1899, was revoked and canceled.

Disbarment proceedings were begun yesterday against Frank G. Bryant, Esq.

A unique damage suit has been begun by Loyman Newton against a Long Beach lighting company for \$10,000. This motion also carried.

The company declares that the last four stars should not be allowed. Commissioner Thorpe thinks likewise, and the question the City was instructed to call in the four stars.

HOW TO BE HEALTHY AND BEAUTIFUL, By Mrs. Symes

Revival of Hoop Exercises for Reducing the Waist and Developing the Bust

To strengthen the waist muscles—Fest with heels together, toes out. Hold the hoop with left elbow bent, right arm straight. Turn the trunk from side to side.

To strengthen shoulder and chest—Fest with both arms, raise it high above the head, bring it down over the head as far as possible and repeat.

Exercise for back and waist muscles—Raise the hoop as in the picture—heels together, toes out, body erect. Bend over forward as far as you can without losing equilibrium.

Exercise for equilibrium—Grasp the hoop as in the picture—heels together, toes out, body erect. Bend over forward as far as the waist; only, keep the knees and elbow straight; repeat.

Exercise for developing chest and straightening shoulders—Hold the hoop as in the picture—heels together, toes out. Lower it, bending the arms as far out and back as possible.

Maids of Athens Used Them Thousands of Years Ago, and They Are Better Than Dumbbells or Clubs

"I HAVE had a good deal about some new Vienna exercises lately. I am told that they are said to be wonderful for reducing the waist and bust. I am not quite sure how they are done, and also will you repeat the directions for some of the Swedish movements or free-hand exercises. I do not seem to be able to accomplish much with my practice. I have tried all kinds, but they do not seem to reduce my waist. It is good to sleep at night, taking exercises I am always so hungry and sleepy after I practice."

"ANXIOUS TO IMPROVE." I illustrate herewith the hoop exercises you inquire about. There is nothing new in them, and they do not come from Vienna.

The hoop exercises were used thousands of years ago in Greece and have been taught and practiced in exercises for grace and symmetry more or less ever since.

Some women do not seem to be able to practice physical culture exercises without grasping an object—either clubs, clubs or the hoop.

I think the hoop is better than clubs, but good work can be accomplished with any or for that matter with out any of them.

The best way to learn to practice free-hand exercises is to have someone give a wad or stick in the hands. Personally I like free-hand exercises the best, because they simplify matters, but they are all good if intelligently followed.

The exercises illustrated in to-day's newspaper are the so-called Viennese movements, warranted to reduce the size of the waist and bust.

They would have the effect of reducing the size of the waist if persistently followed, presuming that the subject also abstains from fat-forming food, for any system of physical culture which develops the muscles will produce not only suppleness, but symmetry, and if the waist is large, and soft these movements will strengthen and make the figure more compact.

Where the waist is fat and the abdomen protrudes, the muscles are weakened and exercises persistently practiced, which increase the circulation of the blood, will restore muscular strength and build up the waist, but the figure will not be thin, not, of necessity, big and hard or lumpy, as so many women imagine. They are full, elastic and strong. Exercises that strengthen the waist muscles will reduce the size of the bust.

The hoop exercises give the waist muscles work to do, and in a short time produce strength where it was weak. The hoop is held just where it was soft and pliable, and naturally there is a decrease in size.

The hoop used in the exercises is the same the children roll, and may be purchased at any shop where toys are sold. The movements illustrated are all good, but the hoop may be used in many other ways.

Any posture that stretches the muscles is helpful. While the hoop movements are extremely graceful, when well executed the same results may be obtained without appliances in a variety of ways. For example:

EXERCISES FOR REDUCING THE WAIST.

Stand erect, stretch one hand as high over the head as possible; then the other, then down at the side as possible. Next, lower the high hand and raise the low one. Alternate and repeat. Presently you will feel an inclination to bend or sway the body.

To this desire and bend as much as possible. You are giving your waist muscles great exercise, and in a week time you will find your waistline slim, and your movements, you will find yourself not only smaller and more compact about the waist, but you will find you are breathing fuller and freer, and your figure younger and more shapely. And I may as well repeat that correct breathing is the secret, the real secret, of health and symmetry.

Use cucumbers about as ripe as one selects for slicing for salads. Do not peel

it, of course, true that one may learn to breathe correctly without what we call physical culture, though deep breathing is physical culture of itself. But what I mean is that one may learn to breathe correctly with dumbbells or hoops to learn how to breathe, whereas one must learn to take long breaths by the practice of almost any gymnastic exercises.

Not long ago I received a letter from a very well-known Philadelphia woman, who for personal reasons did not wish to have her name printed. In it she said that the first time I explained the art of correct breathing she read the instructions aloud to her mother and brother. They all made great sport of the notion that having reached the age of maturity and over, it was now suggested they had none of them the power to learn to breathe.

Just as soon as the subject learns to breathe with the lower as well as the upper part of the lungs and learns how to habitually hold the air in the chest as long as he comfortably can, he will no longer be a mere spectator of the rhythmic gestures of the body and limbs, performed in the following order:

1. Whee in the open air walk erect, head up, chin drawn in, shoulders thrown back, thoroughly inflate the lungs and retain the air for a second or two, then expel it gently. Practice this several times a day, and if your employment keeps you in the house, do the same.

2. Whee in the house, in the morning and the last thing at night when you have nothing on but your underclothing, stand with your back against the wall and fill the lungs to their utmost capacity; then, retaining the breath, gently tap the chest all over with the open hands. Do this regularly every morning and night, gently at first, but gradually increasing the length of time for holding the breath and that of the blows as the lungs grow stronger.

3. Stand upright, heels touching, toes out; place the hands on the hips, the fingers resting on the diaphragm, the thumbs in the soft part of the back. Now inflate the lungs and force the air down into the lower back part of the lungs, fold the arms around the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

4. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this repeatedly, for besides being a good lung developer it is an excellent exercise for the heart.

5. Stand erect, arms hanging by the side, then slowly raise the arms until they are high above the head, at the same time gradually taking in a full breath and holding it for one hundred times. Take eight or ten inspirations.

6. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

7. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

8. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

9. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

10. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

11. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

12. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

13. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

14. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

15. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

16. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

17. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

18. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

19. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

20. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

21. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

22. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

23. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

24. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

25. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

26. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

27. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

28. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

29. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. Do this several times at first, gradually increasing the number. Women seldom use this part of the lungs—tight dresses and corsets prevent the ebb of the breath of life.

30. Whee in the same position, fill the upper part of the lungs full, then force the air down into the lower part and back again by alternately contracting the upper and lower muscles of the chest. WEDNESDAY, APRIL 9.

San Bernardino, Riverside and Orange Counties.

[NEWS REPORTS FROM TIMES CORRESPONDENTS.]

NEW WATER SUPPLY FOR SAN BERNARDINO.

BOARD OF TRADE'S COMMITTEE SO RECOMMENDS.

No Action Taken on Report by Business Organization—Officers Elected—Two Ready Transfers Yesterday. Carnegie Library Must Be Clear.

SAN BERNARDINO. April 8.—A largely-attended meeting of the Board of Trade was held last evening at the county club, members on Court street. A number of members of the business organization were admitted. The total receipts of the organization for the past year, as shown by the treasurer's report, amounted to \$461.25. George M. Cooley was chosen president of the board by unanimous vote to succeed Mr. Gill, who has presided over the organization during the past two years, and who declined to be a candidate for renomination. James Fleming was elected vice-president by acclamation. There was a lively contest for the position of treasurer, the reelection of Col. W. A. Vestal, who will be paid a salary of \$25 a month, and 5 per cent of the collections. C. C. Campbell was elected treasurer. The sum of \$1000 was paid to reduce the solid-water debt by that amount. The association has over three hundred members.

RIVERSIDE.

ELKS INSTALLATION.

RIVERSIDE. April 8.—At a meeting of Riverside Lodge No. 648, B.P.O.E., last night, officers were installed. The Messer Past Exalted Ruler of the Redlands Lodge. Following the installation and prior to the initiation of two candidates, Judge J. S. Noyes, on behalf of the lodge, presented to H. T. Hays, Past Exalted Ruler and the incoming Past Exalted Ruler, a beautiful solid-water drinking cup, appropriately inscribed and having on one side an elk head in gold, as a token of appreciation of the many services he has rendered the lodge. The evening closed with a banquet.

Y.M.C.A. FINANCES.

At the annual union meeting of the Y.M.C.A. held Sunday evening at the Methodist Church, the report of the Y.M.C.A. Committee on Finance showed the past year to have been \$4692.79 and the expenditures \$4603.34.

The sum of \$1000 was paid to reduce the solid-water debt by that amount. The association has over three hundred members.

DELEGATES ELECTED.

At a meeting of the Riverside branch of the Republican League of California held yesterday afternoon at the city courtroom, the following delegates to the state convention were elected: Capt. W. T. Hayes, F. D. Lewis, S. D. Pelton, T. H. Bittner, T. R. Gandy, W. J. Milice, B. G. Mitchell, P. S. Castelman, C. L. McFarland and W. W. Wilson.

RIVERSIDE BREVITIES.

Prof. Bailey of Chicago delivered the last lecture in a series lectured at the High School auditorium, his subject being "Prosperity, the Master Teacher."

Mrs. Martha G. Davis and her son, George Davis, left today for San Francisco, where they will spend several months before going East.

James Fleming, secretary of the committee recently appointed to inquire as to the best means of providing the city with a decent water supply, then read the report of the committee, which in brief recommends that the city dispose of its option on the 100 inches of water in Lake Elsinore, and that the city should develop a new supply by sinking wells east of the city. Action on the report was taken next Monday evening.

REAL ESTATE SALES.

Ingersoll & Ester yesterday purchased of E. W. Smith thirty-two feet of frontage on Third street, a short distance from the station. The purchase price is said to have exceeded \$6000.

M. Goldberg purchased from D. L. Albridge a twenty-three-foot frontage on Third street, and a back lot 100 feet north of San Jacinto, and will improve it by a new building.

James F. Bailey, a member of the committee recently appointed to inquire as to the best means of providing the city with a decent water supply, then read the report of the committee, which in brief recommends that the city dispose of its option on the 100 inches of water in Lake Elsinore, and that the city should develop a new supply by sinking wells east of the city. Action on the report was taken next Monday evening.

SAN JACINTO.

NEWS BREVITIES.

SAN JACINTO. April 8.—J. F. Woods of Los Angeles has leased a large tract of San Jacinto's choice land for dairying purposes. Fifty head of Jersey cows will be shipped here from Downey.

J. S. Chambers of the Hemet tract purchased twenty acres in the arid section north of San Jacinto, and will improve it by gift, and not by means which will create a lien on the property or any part of it.

Articles of incorporation of the Schrock Company of San Francisco were filed yesterday. The company is a commercial organization, its principal purpose being to deal in real estate. It is capitalized at \$300,000, all of which will be used to buy land.

Coroner Thompson went to Barstow yesterday to hold an inquest over the remains of John Morgan, the Postal Telegraph operator, who died from the brain tumor at the Morgan Hotel. His neck was broken, and death was instantaneous.

ONTARIO.

LOVING-CUP GAME.

ONTARIO. April 8.—The Ontario Athletic Club and North Ontario baseball teams played the first of a series of games here yesterday for a loving cup, before spectators. The local team won, 15 to 5.

ONTARIO BREVITIES.

The new National Bank vault has been put in, and remodeling of the room begun. The First National is to be in its new quarters by May 1.

Frank E. Thompson, San Bernardino, organizer for the Twelfth District, visited the Ontario Lodge, Woodmen of the World, in Ontario, in connection with the Woodmen of the World convention, June 14-16, for 400 candidates will be initiated.
